

PERMIT TERM 101

Title: Report of Waste Discharge - Use of Water

When Used: If use of the water to be appropriated or its resulting return flow or wastewater could affect water quality and, therefore, require filing of waste discharge reports under Water Code Section 13260, or when requested by any of the California Regional Water Quality Control Boards. Do not use if the regional board concerned has waived the filing of reports for all types of waste discharge resulting from the proposed uses.

Term:

No water shall be used under this permit until permittee has filed a report of waste discharge with the California Regional Water Quality Control Board, _____ Region, pursuant to Water Code Section 13260, and the Regional Board or State Water Resources Control Board has prescribed waste discharge requirements or has indicated that waste discharge requirements are not required. Thereafter, water may be diverted only during such times as all requirements prescribed by the Regional Board or State Board are being met. No point source discharges of waste to surface water shall be made unless waste discharge requirements are issued by a Regional Board or the State Board. A discharge to ground water without issuance of a waste discharge requirement may be allowed if, after filing the report pursuant to Section 13260:

- (1) the Regional Board issues a waiver pursuant to Section 13269, or
- (2) the Regional Board fails to act within 120 days of the filing of the report.

No permittee shall be required to file a report of waste discharge pursuant to Section 13260 of the Water Code for percolation to ground water of water resulting from the irrigation of crops.
